

SatStation miniBLU – Compact Bluetooth Phone

User Manual

Thank you for purchasing the SatStation miniBLU Compact Bluetooth Phone. This device allows you to make and answer calls without touching your larger Bluetooth-enabled mobile phone. It has the same basic functions as your mobile phone, such as Phone book, Call records, Password setting and so on.

To obtain best performance of this Mini Phone, please read this user manual carefully before using it. Also read the user guide of your mobile phone, which provides important safety and maintenance information.

Bluetooth wireless technology makes it possible to connect compatible communication devices without using cables. A Bluetooth connection does not require the devices to be in line of sight, but both devices should be within 10 meters (30 feet) of each other. Connections can be subject to interference from obstructions.

There may be restrictions on using Bluetooth technology in some locations .Check with your local authorities or service provider.

Overview

Operation Instruction

1. Power-on: Press the Power on/ off Button for a while until the screen gets light and you will see the display as the following. Then release it.

2. Power-off: Press and hold the Power on/ off Button until the screen become dark.
